

## City Neonindo Builds in All Over Indonesia

First of all, I would like to thank you for giving us the opportunity to be your supplier and partner. We honor your business very much.

City Neonindo has grown very much since our establishment in 1983; as you have seen in the growth in our range of services in the previous pages, and in the growing list of clients that includes Unilever, OSIM, Sosro, HP, Indosat, Nokia, Bayer, Merck, Pfizer, etc.

In addition to that, I am very happy to share with you that our company is increasing our involvement in improving our society. In 2004, our director worked as a volunteer consultant for Tzu Chi Foundation in 3 medical cases, and the emergency housing planning that was used to provide housing for more than 4000 families in Indonesia & Sri Lanka during the Asia Tsunami of 2004. Our company is also donating our services in many other social improvement programs in Indonesia, including the flood relief, racial-harmony programs, etc.

We fully understand that we will only be able to do this if we continue to have you as our clients that provide us with continued and new businesses. Therefore we wish that you will always give us the opportunity to be your supplier and partner. If there is anything that you think we could improve on, please do not hesitate to write to us anytime.

I thank you very much again and wish you every success in business and in life.

Kind regards,  
PT. City Neonindo Indah Murni

Oen Hermiati
